NOTIFICATION AND CERTIFICATION

The waste identified on manifest number 93387/87 and bearing the California Waste Code 151 is subject to land disposal restrictions contained in Article 40, Title 22, California Code of Regulations (CCR). The waste meets the definition of a treated hazardous waste pursuant to Health and Safety Code Section 25179.3 (1) (2), which states that waste is considered treated if the waste does not contain any substances above the soluble Thresholds Limit Concentration (STLC) values established in Article II, Title 22, CCR: and the waste is not prohibited from land disposal as provided in H & SC Section 25179.6.

(Waste analysis is attached for these wastes, where available.)

As required by Article 40, Title 22, CCR the following certification is made for these restricted wastes:

I certify under penalty of law that I personally have examined and am familiar with the waste through analysis and testing or through knowledge of the waste to support this certification that the waste complies with the treatment standards specified in CCR Title 22, Division 4, Chapter 30, Article 41. I believe that the information I submitted is true, accurate and complete. I am aware that there are significant penalties for submitting a false certification, including the possibility of fine and imprisonment.
